PROFILE

Computer Engineering graduate with a background in software development and a strong interest in UI/UX design. Experienced in developing digital applications and interfaces, combining technical problem-solving with a user-centred approach.

EXPERIENCE

Software Engineering Intern — OnlyHighIQ

- Developed the administration interface for the OnlyJustCause platform, supporting content and information management.
- Designed intuitive interfaces with a focus on information hierarchy, usability, and efficient workflows.
- **Technologies: React, TypeScript, Node.js/Express.**

Media Coordinator — ISEP Freshers' Reception Week

- Lead a small team responsible for the event's visual identity and public-facing communication.
- Coordinate visual content across social media and promotional materials for one of ISEP's largest annual events, attended by thousands of students.

PROJECTS

Academic - Drone Show Management System **2024 – 2025**

- Developed a system for managing and simulating drone light shows, including drone management, figure creation and show scheduling.
- Implemented 3D flight simulation, collision detection and environmental modelling.
- Applied Domain-Driven Design and Agile/SCRUM methodologies.
- **Technologies: Java, C, .NET, SQL, ANTLR.**

Academic - Cluedo Solver **2025**

- Developed an application that assists players by tracking suggestions, inferring cards and automating deduction.
- Implemented probability-based insights and an optional Augmented Reality mode with marker-based tracking.
- **Technologies: Java, Kotlin, Unity, Figma.**

Extra-curricular - European Youth Parliament **2021- 2024**

- Participated in national and international sessions on European political and social topics.
- Chaired committees, facilitating research, debate and collaborative discussion.

SKILLS

Technologies

- **Programming:** Java, C, Python, JavaScript, Kotlin, TypeScript
- **Web Development:** React, Node.js/Express, HTML, CSS
- **Frameworks & Tools:** .NET, Figma, Unity, Adobe Photoshop, Adobe Premiere Pro

Languages

- Portuguese: Native
- English: C1 — Cambridge English Advanced (CAE)

EDUCATION

BSc in Software Engineering **Sep 2023- June 2026**
Instituto Superior de Engenharia do Porto (ISEP)

Erasmus Exchange — Software Engineering **Sep 2025 - Feb 2026**
FH Campus Wien, Vienna, Austria
